Action Taken Report on Curriculum Feedback

Academic Year 2021-22

Date: 23.07.2021

The feedback was collected from all the stakeholders. After analyzing the feedback, relevant suggestions were listed out and following actions were taken-

- Depending of the feedback, the department has decided to place the suggestion to the members of the Board of Studies. In the meeting of Board of Studies, the opinion of the stakeholders has been given due importance and changes have been incorporated in the syllabus.
- Need based changes have been incorporated in the syllabus from time to time by adding elective/optional paper.
- The appropriate changes in the curriculum have been made to bridge the gap between academics and industry.
- The Curriculum is regularly revised to equip the students to face the emerging challenges.
- Skill development and value added courses have been introduced to enhance employability skills. These courses are regularly revised based on the suggestions received from the students.

DEPARTMENT OF ELECTRICAL ENGINEERING

Action Taken Report on Design and Review on Syllabi

Academic Year 2021-22

Date : 23-07-2021

The Suggestion received through the feedback regarding syllabus updating are promptly communicated to the Board of Studies of Electrical Engineering, Veer Bahadur Singh Purvanchal University.

Feedback on the curriculum was sought and received through the major stack holders. The spectrum of parameters used to obtain the feedback was analysed carefully so that, the analysis would reveal the strength of the curriculum, which could be built upon and the weakness for remedial measures to the department. The parameters chosen allowed both the generic and discipline specific characteristics of the curriculum to be assessed.

The findings from the analysis of stakeholder feedback on curriculum have been communicated to the IQAC, besides following action were taken:

- Course has been revised for making good balance between theory and its application part.
- The course content was analysed and modified in such a way to be essential for contemporary needs.
- The course curriculum was revised through BOS as per the suggestions of the stakeholders and new papers have been introduced as per industry requirement.
- According to the suggestions of the stakeholders new value-added course and vocational course have been framed and implemented so that students may become industry ready.

DEPARTMENT OF MECHANICAL ENGINEERING

Action Taken Report

The Veer Bahadur Singh Purvanchal University Board of Studies for Mechanical Engineering swiftly receives the feedback process comments regarding updated syllabus.

Through the major stake holders, we solicited and received feedback on the curriculum. In order to identify the strengths of the curriculum that could be developed upon and the deficiencies that required departmental remedial action, the spectrum of factors used to gather the feedback was thoroughly examined. The factors used made it possible to evaluate the curriculum's general and subject-specific qualities.

The IQAC has been informed of the results of the analysis of stakeholder feedback on curriculum, and the following steps have been taken:

- The curriculum has been changed to better balance the course's application and theory components.
 - The department is always proactive in making curriculum adjustments that will better position students to compete for future academic and industrial careers.
 - According to stakeholder suggestions, the course content was amended through BOS, and new papers were added in accordance with industry standards.
 - New value-added courses and vocational courses have been developed and put into place in accordance with the recommendations of the stakeholders to help students become prepared for the workforce.
-
- ❖ The Mechanical Engineering Department are continuously trying to maintain a strong commitment to teaching excellence by utilizing well-trained and qualified faculty members.
 - ❖ The department are always encouraging and strengthening ongoing education with a focus on activities for students, teachers, and technical staff that involve training, skill development, industrial practice, and research.
