ABOUT THE PROGRAM

The basic goal of the workshop is to create awareness among the audience and encourage the creation of innovation in holistic development for the country globally. Innovation and Invention of modern technology as the result of human intellect (creation of the mind) expands the bulk of intellectual property rights immeasurably. The computer and Information technology has revitalized accesses and spreading information globally. In parallel, the threat of piracy, plagiarism and stealing of intellectual material in diverse forms also upsurge. In this milieu, the Intellectual Property Rights (IPR) plays a pivotal role in boosting the economic growth of the country. The intellectual property rights also ensure the integrity and security of the intellectual properties like innovative design, blueprints, film and R&D involving business, technology, literature, science etc. India seeks faster sustainable and inclusive growth fostering the innovation as well as protecting them. Our country has expanded the role of intellectual property rights in the innovation and design processes manifold. India has improved significantly in its ranking from 81 in 2015 to 46th among the 132 economies featured in the Global Innovation Index (GII) 2021 to secure more IP assets in this realm. Since at global perspective of IPRs bit controversial and felt it necessary for a coherent a jurisdiction to equalize in view of the global frame work. In the twenty-first century, the monarchy of intellectual property rights appears to be a new and fast-emerging are a of practice and appears to be beneficial to the sphere of human endeavour.

In order to take forward the National IPR Policy and to enhance creativity, innovation, competitiveness and economic growth in India, it is imperative to harness IP. With phenomenal growth of the Indian Economy it is vital that IPRs are generated in India and then legally protected and exploited. Inadequate knowledge about the rights of individuals to protect their ideas and innovations and low awareness about the procedures involved in obtaining an IPR has hindered India's growth in Intellectual Property. With India's potential and its importance in the global arena, it's time we rise and become a leader in innovation and Intellectual Property.

ABOUT THE PROGRAM

The basic goal of the National Webinar is to create awareness among the audience and encourage the creation of innovation in holistic development for the country globally. Innovation and Invention of modern technology as the result of human intellect (creation of the mind) expands the bulk of intellectual property rights immeasurably. The computer and Information technology has revitalized accesses and spreading information globally. In parallel, the threat of piracy, plagiarism, and stealing of intellectual material in diverse forms also upsurge. In this milieu, the Intellectual Property Rights (IPR) plays a pivotal role in boosting the economic growth of the country. The intellectual property rights also ensure the integrity and security of the intellectual properties like innovative design, blueprints, film, and R&D involving business, technology, literature, science etc. Industries and persons would not gain the full advantages of their creations without getting the protection of expressed ideas which might discourage the novel invention. India seeks faster sustainable and inclusive growth fostering the innovation as well as protecting them. Our country has expanded the role of intellectual property rights in the innovation and design processes manifold. India has improved significantly in its ranking from 81 in 2015 to 52 rank in 2019 on the Global Innovation Index (GII) to secure more IP assets in this realm. Since at global perspective of IPRs bit controversial and felt it necessary for a coherent a jurisdiction to equalize in view of the global framework. In the twenty-first century, the monarchy of intellectual property rights appears to be a new and fast-emerging area of practice and appears to be beneficial to the sphere of human endeavour.

He has been mentoring for five post-doctoral fellowships namely UGC-Dr. D.S. Kothari (twice), DST-Women Scientist-A, DST-Women Scientist-B, and SERB National PDF. He has also supervised more than 90 students for M.Sc. dissertation/short project work in Biotechnology. He is a life member of scientific societies namely BRSI, Trivendrum, SBC(I), Bangalore, Indian Science Congress, Association, Calcutta, Society of Plant Biochemistry and Biotechnology, IARI, New Delhi, Association of Microbiologist of India (AMI), New Delhi and UPAAS, Lucknow. He has delivered more than 80 invited talks/ lectures in conferences/symposiums and served as Mentor for the DST-INSPIRE Science internship camp and Inspire-awards. Presently he is working on Plant specific transcription factor-DOF (DNA binding with one finger) and Nuclear Factor-Y (NF-Y) for developing biotic and abiotic stress tolerance crops and pectinases group of enzymes with potential applications in different industries. His research work has been published in National and International journals of repute.

An online workshop on Fake News and Fact Verification was organized by the Mass Communication Department. Dr. Nimish Kapoor, President and Senior Scientist, Science Film Festival and Publication Division, Vigyan Prasar, Government of India, introduced the participants to the techniques of online fact verification. This program was done under the Google News Initiative India Training Network. He said that misleading news is spreading information epidemic among people, to avoid this you need to verify the news yourself from authorized sources. In this, reverse image is very helpful in verifying the photo related to fake news.

The subject was done by Dr. Manoj Mishra, Chairman of the Enforcement and Reception Department. Researcher Manoj Bhatt did technical cooperation and operation. On this occasion, all the researchers and students of the department including Prof. Manas Pandey, Dr. Avadhbihari Singh, Dr. Digvijay Singh Rathore, Dr. Sunil Kumar, and Dr. Chandan Singh were present.

Veer Bahadur Singh Purvanchal University's Department of Mass Communication and Internal Quality Assurance Cell organized a seven-day workshop on the topic 'Multidimensional nature of media in the digital era'. Speaking as the chief guest in the inaugural session of the online workshop, Professor KG Suresh, Vice Chancellor of Makhanlal Chaturvedi National University of Journalism and Communication, Bhopal, Madhya Pradesh said that there has been a revolutionary change in the digital world.

Professor KG Suresh advised journalists not to get disheartened since the Corona period. As a special guest, former chairman of Mass Communication Center, Rajasthan University, Professor Sanjeev Bhanawat said that today journalism has been imprisoned in mobile after coming out of printing presses. Distribution of content is happening fast. Journalism has become multitasking in the digital age. Vice Chancellor Professor Nirmala S. Maurya said in the presidential address that the thinking of the society changes with time.

With the changing times, mass communication also changes. Journalism, which once started from a single page, has reached the digital medium today. The guests were welcomed by Prof. Manas Pandey, Coordinator of Internal Quality Assurance Cell and Dr. Manoj Mishra, Coordinator of Workshop Framework and Operations. The vote of thanks was done by Dr. Sunil Kumar.

Dr. Digvijay Singh Rathore, the organizing secretary of the seven-day workshop, presented the introduction of the guests. The seven-day workshop concluded on June 20, 2021. Dr. Dharmendra Singh, Prof. Rajesh Sharma, Prof. Raghavendra Mishra, Dr. Avadh Bihari Singh, Dr. Chandan Singh, Dr. Kaushal Pandey, Dr. Bushra Jafri, Dr. Prabha Sharma, Dr. Chhote Lal, Lata Chauhan, Dr. Satish Jaisal, Dr. Radha Ojha, Dr. Dayanand Upadhyay Participants from 21 states of the country including Dr. Vijay Tiwari, Dr. Shashi Kala Yadav and others were present.

ABOUT THE PROGRAM

The basic goal of the National Webinar is to create awareness among the audience and encourage the creation of innovation in holistic development for the country globally. Innovation and Invention of modern technology as the result of human intellect (creation of the mind) expands the bulk of intellectual property rights immeasurably. The computer and Information technology has revitalized accesses and spreading information globally. In parallel, the threat of piracy, plagiarism, and stealing of intellectual material in diverse forms also upsurge. In this milieu, the Intellectual Property Rights (IPR) plays a pivotal role in boosting the economic growth of the country. The intellectual property rights also ensure the integrity and security of the intellectual properties like innovative design, blueprints, film, and R&D involving business, technology, literature, science, etc. Industries and persons would not gain the full advantages of their creations without getting the protection of expressed ideas which might discourage the novel invention. India seeks faster sustainable and inclusive growth fostering the innovation as well as protecting them. Our country has expanded the role of intellectual property rights in the innovation and design processes manifold. India has improved significantly in its ranking from 81 in 2015 to 52 rank in 2019 on the Global Innovation Index (GII) to secure more IP assets in this realm. Since at global perspective of IPRs bit controversial and felt it necessary for a coherent a jurisdiction to equalize in view of the global framework. In the twenty-first century, the monarchy of intellectual property rights appears to be a new and fast-emerging area of practice and appears to be beneficial to the sphere of human endeavour.

Under the joint aegis of Mass Communication Department and PR Policy of Veer Bahadur Singh Purvanchal University, an online national seminar was organized on Sunday to discuss the various dimensions of the role of media in the era of Kovid 19. People from different parts of the country joined the seminar through Facebook and Zoom.

The chief guest of the seminar, Professor Dr. Sanjeev Bhanawat, former chairman of journalism of Jaipur University, said that media, especially newspapers, have played a big role in public awareness during the Corona era. People have been introduced to the reality and analytical news has been made available.

Delhi's well-known journalist Satish K Singh, as a special guest in the seminar, said that in this era the government has decided to provide financial help to every sector, in such a situation, the government should announce a package for the media industry as well.

Vice-Chancellor of the University, Prof. Dr. Rajaram Yadav said that in this era, the work of media has proved its essentiality in the society. Chief speaker Nalin Chauhan, Deputy Director, Directorate of Information and Publicity, Delhi, said that today we are facing an invisible disaster, the nature of such information has become even more important. The topic was introduced by Dr. Sarvesh Tripathi. Dr. Manoj Mishra Dr. Ashima Singh Atur Sharma did it. Dr. Digvijay Singh Rathore Vibha Singh Dr. Sunil Kumar Dr. Avadh Bihari Singh Dr. Chandan Singh were present.

Event Report

Event: Critical Subject Training on Artificial Intelligent

Venue: UNSIET, V.B.S Purvanchal University Jaunpur

Date: 27-01-2020 to 31-01-2020

Resource Person: Dr. T Nagaraju & Mr. Ranjith K, PES College of Engineering Mandya

Number of Participants: 54

Program Module:

The entire course is ICT-based with all necessary material (lectures and tutorials), that will help them to analyze and understand the vast application of the subject. Introduction, Classification of vibration systems, Harmonic motion, Natural frequency & response, Effects of vibration. Single degree freedom system, Equation of motion, Newton's method, Energy method, Example problems. Damped vibrations, Vibrations of systems with viscous damping, Equation of motion, Logarithmic decrement. Numerical problems. Single Degree Freedom: Forced vibration, Forced vibration with Harmonic excitation, steady state vibrations, Forced vibration with rotating and reciprocating unbalance, Support excitation, Vibration isolation, Transmissibility. Numerical problems on Forced vibration, Vibration measuring instruments- displacement, velocity and acceleration measuring instruments, Numerical problems.

Event Report

Event: Expert Lecture on “Issues, Challenges and Problems in Computer Science & Engineering Research”

Venue: V.B.S Purvanchal University Jaunpur

Date: 11-01-2020

Resource Person: Prof. Anil Kumar Tripathi, IIT BHU

Number of Participants: 40

Program Module:

This Lecture identifies pertinent Issues, related Challenges and the problems in this important area of studies and research. Various concerns that bother minds of academicians connected with Theoretical Computer Science would first be taken up. Various Technologies that have emerged and the way they are redefining the systems and infrastructure will be considered next. Non-Functional concerns are gaining importance these days and hence pertinent Research Issues in this area will also be identified.
